

# Eliminate Print Servers

Establish a serverless printing infrastructure that eliminates the need for print servers, delivers centralized print management, and empowers end-users to install their own printers with a single click.

The impact of eliminating our print servers was immediate. We no longer have to worry about print servers going down and disrupting business. I wish we would have discovered PrinterLogic years ago.”

- ROGER VANORMAN | HOLT CAT

# Serverless Printing Infrastructure

With our centrally managed direct IP printing platform, you'll eliminate all print servers and empower end users with mobile printing, secure release printing, and many advanced features that legacy print management applications can't provide.

## True SaaS Solution

Completely serverless, multi-tenancy, no VPN required

## Printer Agnostic

Deploy and manage native drivers for any network printer

## OS Agnostic

Direct IP printing for Windows, Mac, Linux, and Chrome OS

## VDI Printing

Easily manage VDI print deployments in any virtual environment

## Secure Release Printing

Hold confidential print jobs and release them from any printer, anywhere

## Mobile Printing

Empower users to securely print from any iOS or Android device

## Advanced Reporting

Track all print/scan/copy activity across your organization

## Cloud-based IdP Support

Authenticate with identity providers like Okta, Azure AD, and Google ID

## Off-Network Printing

Provide secure printing access to BYOD, remote, and affiliate end users

## Other Features

Keep Print Jobs Local

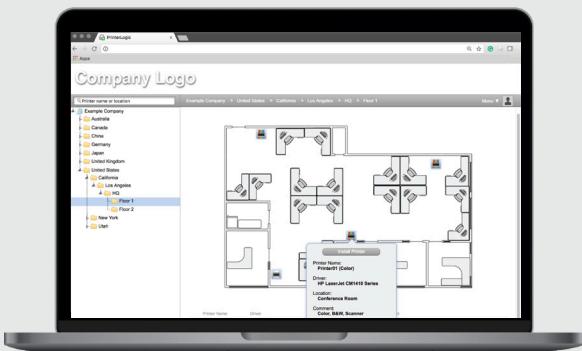

Maintain PHI Compliance

Automated Updates

Touchless Secure Printing

Zero Trust Printing

EMR Printing

### Self-Service Printer Installation Portal

Empower end users to easily find and install printers without calling the service desk.
